Aditi Sharma

Quality Assurance Engineer|2x Salesforce Certified | Expert in Salesforce, Functional, Mobile Testing | Ex - Accenture | Ex -Magic Edtech
Noida, Uttar Pradesh, India

Summary

As an Associate Software Engineer with experience in Salesforce testing, I have a passion for ensuring that every product I work on meets the highest standards of quality. With a strong background in manual testing, as well as web and mobile application testing, I am well-equipped to handle any testing challenges that come my way.

My expertise in test planning and management has allowed me to successfully lead multiple projects, delivering quality results on time and within budget. I am well-versed in Agile methodologies and have a proven track record of implementing efficient testing processes that streamline workflows and improve overall product quality.

My proficiency in tool JIRA has helped me to effectively track and manage test cases, defects, and project progress. I am also skilled in end-to-end testing, ensuring that all components of a product are thoroughly tested before release.

What truly sets me apart is my ability to collaborate and communicate effectively with cross-functional teams, ensuring that everyone is aligned and working towards the same goal. I am a natural leader and have successfully managed and mentored teams to deliver high-quality products.

I am constantly seeking new challenges and opportunities to learn and grow in my field.

_____

Experience

Accenture
Associate Software Quality Assurance Engineer-Salesforce Testing
April 2023 - June 2025 (2 years 3 months)
Jaipur, Rajasthan, India

In my QA testing role, I've served as an associate, contributing to Test Planning Creation, developing and executing test cases, and closely monitoring progress. I've been actively involved in planning and managing dependencies, ensuring a streamlined testing process.

Specifically, my experience includes:

• Served as a QA in Salesforce.com CRM application.

• Solid understanding of Software Development Life Cycle (SDLC) and expertise across all stages of QA and Defect Life Cycles.

• Proficiency in working with Data Loader, Workbench, and Salesforce.com Sandbox environments.

• Experience with Waterfall, Agile software development (Scrum).

• Expertise in manual testing using Quality JIRA.

• Proficient in working with SQL queries for Database testing.

• Active involvement in GUI, Functional, Integration, System, Regression, End-to-End testing, User acceptance, API Testing, and Database testing.

• Self-motivated and team-oriented individual with robust problem-solving abilities.

Magic EdTech
QA Manual Tester
July 2022 - February 2023 (8 months)
Noida, Uttar Pradesh, India

Experience in Web Application Testing and Mobile Application.
